

# CARE ABOUT CLIMATE

## OUR MISSION

Organize a youth network of climate activists empowered to equitably address the climate crisis by bridging knowledge with action and sharing their climate solutions on the international stage.

## OUR VISION

An international community of youth united, empowered, and educated to achieve the just climate future we need from the local to global level.

## OUR ORGANIZATION

A network of 97 climate activists from 40 countries with decades of international and local climate action experience combined.

## OUR PROGRAMS

### COP TRAINING

Self-guided training on the most important international climate change event for the future of humanity: the United Nations Framework Convention on Climate Change Conference of the Parties (COP)! Our course provides training on navigating COP, reading decision texts, and speaking with negotiators, while offering tools to empower all participants to be their best advocate once there.

### COMMUNITIES OF PRACTICE

From sporting events to family dinners, this program recognizes that climate change can be apart of everyday life. The program hosts online communities of practice for people to discuss how to bring climate conversations and action into their daily life and activities. while building global citizens for the climate.

### NDC PROJECT

The only youth-led intergenerational and gender justice analysis of Nationally Determined Contributions (NDC) to the Paris Agreement. The program trains, educates, and empowers young people to communicate the needs of their communities using data-driven analysis towards the improvement of their NDC.

### INTERNATIONAL CLIMATE ACTION

CAC members actively participate in the UN Climate Change processes through writing policy recommendations and hosting events at COP. This year, CAC is launching COP-Mates, a buddy system to provide support and guidance for new COP attendees, ensuring that everyone can make the most of this space.

# CARE ABOUT CLIMATE

**97**  
Volunteers

**40**  
Countries

**150K**  
Impressions

## COP Training

We brought over **80 climate leaders** from 30 countries together to learn about COP.

## Access to UNFCCC Events

We believe in enhancing access for youth voices at UN events and have supported over **50 young people** in attending UNFCCC events since 2018.

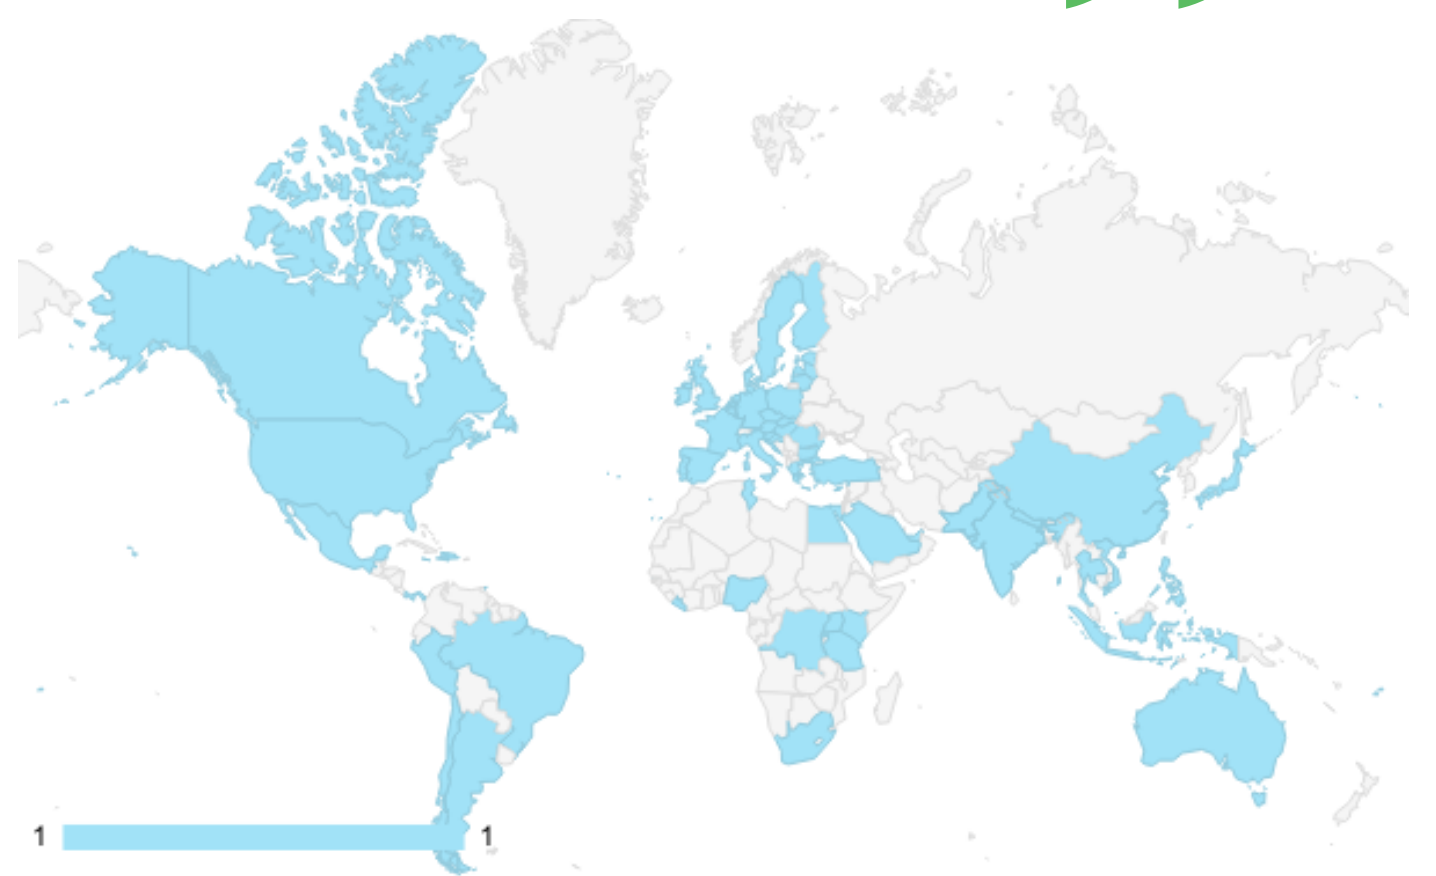

## Policy Changes

Team members led the call for formally **including young people as stakeholders** in the COP27 outcomes.

"At CAC, we are empowering everyone to be their own best advocate in climate decision-making spaces."

We have trained over **200 young people** in analyzing their country's NDC, resulting in **48 analyses** of intergenerational and gender justice representative of all UN regions and 75% of global emissions.

Analyses are being used as references for the Global Stocktake and by policymakers in countries worldwide.
